

HALLOWEEN CHOCOLATE COFFIN WORKSHOP

In this Halloween themed Chocolate Workshop, you will learn how to make a 3D chocolate coffin, which we will fill with Halloween candy. You will assemble the chocolate coffin and decorate it as you like, making your very own beautiful, fun and delicious treat. We will also have candy molds for the skeleton you see in the picture along with other fun Halloween decorations.

The chocolate and all necessary utensils and templates will be provided at the workshop, but it is recommended that you bring an apron. We'll provide boxes to package your new 3D chocolate coffin to take home. Each student will have the opportunity to use all of the different tools, and practice new techniques while they decorate their new chocolate dessert. When the workshop is done, your new chocolate creation is yours to take home to enjoy with your family and friends.

Workshops are about 90 minutes. \$20 per person, We accept cash, check & credit cards. Hope you join us to Learn Something New & Have Fun!
